

Understanding

When you talk to professionals about your health, it is very important that communication works. If your own language skills are not good enough, an intercultural interpreter will help you.

Intercultural interpreters translate the content of a conversation with a specialist orally for you. As a result, there are fewer misunderstandings. Especially when it comes to health, a professional translation is important.

Only in exceptional cases should relatives or acquaintances be translated.

Many hospitals, schools and social institutions offer free intercultural interpreting.

Finding help

Find an interpreter

Seek professional help with interpreting

National Telephone Interpreting Service

Telephone interpreting team of AOZ Medios: Tel. 0842 442 442 / costs CHF 4.- / minute
